

I am writing today to say that I disapprove of this proposed bill. I live probably on the cusp of the half-mile radius of a train station which would apply here. There is already heavy traffic and parking issues. But more importantly, we should be reluctant to give up any control of how we operate as a community. I don't believe not passing this prevents the type of development from happening. At least the ones most affected by such development requests have a say rather than stifling their ability to have a voice...as I understand it. Don't we all want more say in how we are governed and not less? Thank you for the opportunity to express my views.
